TESTIMONIALS

“ *Our motto has always been ‘all things skin.’ By adding skincare supplements to our lineup, we are now able to offer our patients medical grade skincare both internally and externally. Having a natural, effective approach to treat the skin has been a welcomed option for many of our patients.* ”

DR. MISSY CLIFTON, Board Certified Dermatologist and Founder of Premier Dermatology

“ *The supplements have increased the confidence level in the clients, and their parents, and has opened the potential to clients that were previously not open to systemic treatment. Some clients have also had little to no improvement with other systemic treatments but are seeing wonderful results with the supplementation; and therefore, are returning more often for other treatments as well.* ”

THERESA SETTER, APRN, and owner of Revitalize! CNY

“ *I have had acne since I was 14 years old. I am now 61 and continued to have problems until I saw your products. I ordered online seven months ago; and within a month’s time, saw results!! I couldn’t believe it!! I’ve tried everything on the market and spent a fortune in the past. I’ve always been self-conscious but now hardly wear any makeup at all. Thank you so much.* ”

“ The best improvement for me had been my hands, I was embarrassed at how they looked and couldn't hide them. I'd always wear long sleeves to try and cover them up. People would also often comment on them, asking what was wrong with them, which made me more self-conscious. I would always avoid wearing dresses because of my legs, so never felt good on a night out. The results are amazing.
