

THE NEW FRONTIER OF AESTHETIC PEELING

Real results for healthy and regenerated skin

BioRePeelCl₃[®] improves the skin surface, imperfections, and accelerates cell turnover. Stimulating the reconstruction of collagen and elastin deep within the skin layer, results can be seen instantly and continue to improve over the following weeks.

With ZERO to minimal skin shedding, this revolutionary professional grade peel means you won't have to put your social plans on hold while your skin heals.

FEEL THE BENEFITS!

IMMEDIATE RESULTS

Leave your treatment with an instant glow and watch as the results improve in the coming days.

MINIMAL TO NO AFTEREFFECTS

Gone are the days of hiding while your skin heals, like so many other peels. With ZERO to minimal shedding, you can go on with your daily life. BioRePeelCl₃[®] is NOT photosensitive and can therefore be used all year round.

NEEDLE FREE AND PAINLESS

BioRePeelCl₃ is applied without a needle - This instant glow and hydrating skin feeling can be achieved on your lunch hour and is PAIN FREE!

ACTIVE INGREDIENT ACTION

The super moisturizing formula stimulates the skin in a biosynthetic process essential to countering effects of aging and skin damage caused by UV rays and environmental pollution.

BioRePeelCl₃[®] is a high-quality ITALIAN MADE PRODUCT.

It's patented formula penetrates the superficial layer of your skin. There it creates a HEALTHY chemical injury, helping produce collagen and elastin. It is rich in a combination of amino acids and vitamins.

INGREDIENTS

- TCA removes dead skin cells and stimulates new cell growth
- LACTOBIONIC ACID provides an underlayer to skin cells
- SALICYLIC ACID helps fight bacteria on skin
- TARTARIC AND CITRIC ACID aid in the exfoliation of the skin
- GLYCINE, PROLINE, HYDROXYPROLINE essential amino acids for production of healthy collagen
- ARGININE balances the TCA and stimulates the blood stream
- VITAMINS C AND B2 powerful antioxidants for the skin
- GAMMA-AMINOBUTYRIC ACID relaxes muscles topically
- SQUALANE natural lipids to lubricate and protect your skin
- ISOPROPYL MYRISTATE acts as the delivery method of BioRePeelCl₃[®] to the dermis

With BioRePeelCl₃[®] the work is done from the INSIDE OUT.

Unlike your traditional TCA peels, most chew at the superficial layers of the skin until the desired area is barely visible anymore. Who says your skin needs to peel to achieve optimal results? Our peel gets to the root of the issue and assists in pushing it up and out for significantly longer lasting results.

The most INNOVATIVE peel on the market today and SOLD IN OVER 80 COUNTRIES worldwide

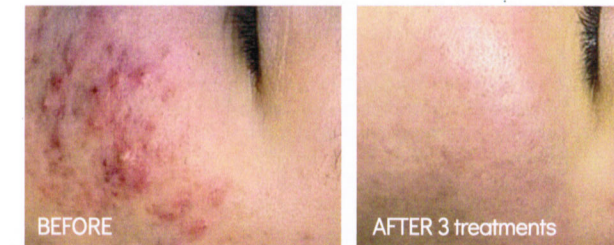

CONDITIONS TREATED

BioRePeelCl₃[®] can be performed in a single session or used in several treatments to address the following skin conditions:

- SUN DAMAGE
- BLEMISHES
- HYPERPIGMENTATION (PIH)
- SCARRING
- ROSACEA
- LARGE PORES
- MELASMA
- GENERAL SKIN REJUVENATION

(Your practitioner will consult with you regarding how many sessions are recommended to achieve the desired results).
