

## EXO|E is a 3 Step Process

D|TOX helps prepare your body's ideal environment for the cell signaling processes it uses to fight inflammation and restore equilibrium.

EXO|E is a concentrated loading dose of stem cell factors including exosomes, liposomes, growth factors, anti-inflammatory factors, VegF and thousands of additional factors per application, leading to enhanced regenerative results.

RE|PAIR reinforces the work of EXO|E with ten additional applications of exosomes, liposomes, and the full complement of stem cell factors found in the biological process of healing.

# EXO|E™

PLANT STEM CELL TECHNOLOGY

## What is the EXO|E Skin Revitalizing Complex?

The EXO|E Revitalizing Complex line is a patent pending, formulated set of natural plant stem cells secretory factors that include exosomes, liposomes, proteins, peptides, and anti-inflammatory factors. EXO|E is an ideal and natural treatment to combat, reduce, and even reverse common signs of aging.

## What is special about the EXO|E Technology?

The EXO|E technology revitalizes the skin using a patent pending proprietary system of biomimetic nanoparticles.

## What are liposomes?

Liposomes transport vitamins and nutrients into the skin, additionally leading to visibly healthier looking, revitalized skin.

Post EXO|E Treatment

## What are exosomes?

Exosomes are found in a plant and human stem cells and are part of cell to cell communication. They can stimulate delivery of proteins, lipids, and metabolites to nourish cells resulting in healthier looking skin from the inside out.

## How are the exosomes derived?

In EXO|E's state-of-the-art facility, we use patent pending cultural practices to grow bio based stem cell suspensions from which we extract the factors incorporated into all our EXO|E product line.

## How can the EXO|E Skin Revitalizing Complex be used?

EXO|E can be used in combination with a procedure such as Microneedling, RF Microneedling, skin resurfacing procedures, or incorporated into your own home skincare regime.

## Am I a candidate for EXO|E?

EXO|E is for all skin types, promoting a more radiant, hydrated and even-toned complexion. It visibly reduces the appearance of scars, fine lines, and wrinkles, resulting in firmer and smoother looking skin. As with all cosmetics, ask your provider what's best for you.
